

LineSelect™ Model 7461 Dual-Channel HD15 VGA, USB-A Keyboard, USB-A Mouse A/B KVM Switch

- Each Channel can Share ONE Keyboard, Video, Mouse System with TWO Laptop Docking Stations.
- Mounted in a shock and vibration resistant enclosure.

INTRODUCTION:

The **LineSelect™** Model 7461 (HD15 VGA, USB-A Keyboard, USB-A Mouse) A/B KVM Switch allows the user the capability of sharing one KVM system connected to the “COMMON” port among two laptop docking stations connected to the “A” and “B” ports with each of its two channels.

The switch is easily operated by a front-panel rotary selector switch. Rackmount configuration is standard. The **LineSelect™** Model 7461 is enclosed in a 2U, full rack size, all metal black chassis designed to provide EMI/RFI shielding and fit in a standard 19” rack.

FEATURES:

- Each channel allows quick connection to any one of two KVM devices from one COMMON KVM device.
- Manual operation via front-panel rotary switch.
- Switches both channels simultaneously.
- High quality sealed switch with self-wiping precious metal contacts.
- All pins of the HD15, and USB interfaces are switched via a break-before-make rotary switch.
- The switch ports are transparent to all data.
- Eliminates the need to plug and unplug cables.
- No external power required.
- Attractive all metal black box packaging provides EMI/RFI shielding.
- **Custom length KVM cables available for your switch installation. Get better network performance!**
- Lifetime guarantee against manufacturing defects.
