Model 9450 DB25 Voice/Data A/B Switch with Half Rack & Full Rackmount Enclosure

• **Applicable to ANY DB25 Interface since all 25 pins switched.**

INTRODUCTION

The Model 9450 DB25 VOICE/DATA A/B Switch allows the user to switch COMMON equipment to either VOICE or DATA ports with a simple flip of a switch. The unit supports all 25 pins of the DB25 interface. No need to plug and unplug cables, thereby eliminating connector wear.

FEATURES:

• Manual, Single Channel A/B Switch in Slim Rackmount enclosure.

• Allows quick connection to either of two networks from one COMMON network.

• DB25-Female Connectors used for the VOICE, DATA, & COMMON ports.

• Manual control means no power supply necessary.

• Switching mechanism is a sealed precious metal contact switch.

• All 25 pins supported.

• Lifetime guarantee against manufacturing defects.

• All aluminum enclosure provides effective EMI/RFI shielding.

• Custom length cables available.

• Private Labeling Option: ESL switches may be Custom/Private Labeled. Ask for quote.

SPECIFICATIONS:

**CONNECTORS:** (3) DB25(F) Connectors on rear panel labeled VOICE, DATA, and COMMON.
