

## Model 9457 2-Channel, RJ45 A/B/C Cat 5e and 1-Channel, RJ45 A/B Cat 5e Switch, Manual Control, Rackmount

### INTRODUCTION

The Model 9457 is a unique device comprised of a 2-Channel RJ45 A/B/C, Cat5e Switch and a 1-Channel RJ45 A/B Cat5e Switch, all packaged in a slim 1U (1.75") high, 19-inch wide rackmount unit. The switches are manually controlled via two front panel rotary knobs. The two A/B/C switches are operated simultaneously by knob 1, and the single A/B switch is operated by knob 2.

### FEATURES:

- Manually switch 2 channels of A/B/C ports simultaneously via one knob, and 1-Channel of A/B ports on another knob, with both located on the front panel.
- No power required.
- **Rated for 10/100/1000 networks (Up to Cat5e)**
- Each channel switches all (8) leads.
- All (11) RJ45 female ports located on the rear panel: (3) A ports, (3) B ports, (2) C ports and (3) Common ports.
- All aluminum case provides EMI/RFI shielding.
- Dimensions: 19" W x 1.75" (1U) H x 8" D
- Weight is approximately 3 lbs.
- Tested for Cat5e compliance.
- Custom length RJ45 Cat5e cables are available in a wide variety of colors.
